

Preface

In this newsletter, a variety of students' writing has been published for your reading pleasure. They include P.1 students describing themselves, P.4 students comparing Hong Kong 60 years ago and now and P.6 students' introductions.

When reading students' work, you will be able to see how their writing skills develop as they progress from P.1 all the way up to P.6. We should also be proud of the level of creativity shown in their writing. Well done! Our students' writing should inspire us all to pick up a pen and write about the things in our lives that we enjoy.

Enjoy the read!

P.4 Differences between Hong Kong 60 years ago and now

In Hong Kong, children did not play electronic games 60 years ago. They played hopscotch and hide-and-see because they had no money to buy those expensive toys. Children play electronic games on computers and mobile phones now.

Some children could not go to school 60 years ago because they did not have any money to pay the school fee. They were poor.

Although most children can go to school now, some children still cannot go to school in some poor countries.

4A Chan Uen Sum, Karina

Children did not play electronic games 60 years ago. They played hide-and-see and hopscotch. They liked these games because they were fun and interesting. Children could run and jump in the playground.

They play electronic games now. They think these games are good because they are exciting.

The toilets were outside houses 60 years ago. It was really inconvenient. The toilets are inside now. It is very convenient.

I like the life in Hong Kong now because it is more convenient.

4B Ngai Yin Lam, Isaac

60 years ago, some children never went to school. However, all children can go to school now. 60 years ago, there weren't many schools. However, there are many schools now.

60 years ago, nobody used electronic products. However, everybody uses electronic products now. 60 years ago, there was a lot of space. Everybody played hide-and-see. 60 years ago, the living environment was very good. However, the living environment is really bad now because there isn't a lot of space and it's expensive.

4C Fung Nga Ki, Kitty

I would like to tell you something about Hong Kong. 60 years ago, some children never went to school. However, all children can go to school now. 60 years ago, there weren't many schools.

However, there are many schools now. 60 years ago, nobody had electronic products. They played paper-scissors-stone, hopscotch and hide-and-see. Now we play electronic games and phone games.

4D So Tsz Hin, Philip

Children never played computer games in the past. However, computer games are very popular nowadays. 60 years ago, children went to school on foot. However, now, children go to school by bus. There weren't any museums before.

However, there are some museums now. I feel so happy now because I can play computer games and I can go to school by bus. Also, I can go to museums.

My favourite festival

The festival I like best is the Double Seventh Festival. It is on the seventh day of the seventh lunar month. It is a traditional festival which is full of romance. The beautiful love story of the Cowherd and Weaver Maid has been passed down from generation to generation. I like this Chinese festival because Cowherd and Weaver Maid showed their devoted love to each other. It is also a legend of true love and family unity. That is why I like this festival.
